

Product Specification Sheet

Product: Affinity Purified Anti-Human MAD2L2 (Rabbit)

Code: 600-401-470

Lot #: 13402

Size: 100 µg

Physical State: Liquid (sterile filtered)

Antibody Concentration: 0.81 mg/ml (by UV absorbance at 280 nm)

Buffer: 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2

Stabilizer: None

Preservative: 0.01% (w/v) Sodium Azide

Storage Conditions: Store vial at -20° C prior to opening. Dilute only prior to immediate use. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Expiration date is one (1) year from date of opening.

Application Note(s): This affinity purified antibody has been tested for use in ELISA against the immunizing peptide. Reactivity in other immunoassays is unknown.

Recommended Dilutions: This product has been assayed by ELISA against 0.1 µg of the immunizing peptide. A 1:20,000 to 1:100,000 dilution of the antibody is recommended for this assay.

Purity and Specificity: This is an affinity purified antibody produced by immunoaffinity chromatography using the immunizing peptide after immobilization to a solid phase.

Immunogen: This affinity purified antibody was prepared from whole rabbit serum produced by repeated immunizations with a synthetic peptide corresponding to aa 3-14 of Human MAD2L2. MAD2L2 (MAD2B / REV7 mitotic arrest deficient-like 2 protein) is part of the mitotic spindle assembly checkpoint. Prevents anaphase until chromosomes align. MAD2L2 is related to the MAD2L1.

Peptide sequence: T-L-T-R-Q-D-L-N-F-G-Q-V

Note: This product is for research use only and is not intended for therapeutic or diagnostic applications. Please contact a technical service representative for more information.
